

Cloud Migration Excellence: Cynefian

Cynefian is your trusted IT partner specializing in seamless cloud migrations from AWS, GCP, Azure, and other major cloud providers to Vigyanlabs' hyperlocal cloud infrastructure. We bridge the gap between your existing cloud estate and Vigyanlabs' innovative offerings, ensuring a smooth transition that maximizes performance while minimizing risk.

Our deep technical expertise, combined with a methodical and risk-aware migration framework, empowers clients to move confidently toward Vigyanlabs' cloud stack. We reduce migration friction and accelerate time-to-value, helping organizations realize the full potential of India's premier hyperlocal cloud platform.

Data Flow

Comprehensive Migration & Transformation Services

Hybrid & Multi-Cloud Integration

Seamless connectivity between on-premises, AWS/GCP/Azure, and Vigyanlabs via secure networking, API gateways, and federated identity management.

DevOps & CI/CD Enabling

Containerization, pipeline refactoring, Infrastructure as Code (Terraform, Ansible), and GitOps workflows for repeatable, version-controlled deployments.

Observability & Monitoring

Comprehensive metrics, logs, tracing, and dashboards (Prometheus, ELK, Grafana) aligned with Vigyanlabs' monitoring stack for complete visibility.

Security & Compliance Hardening

- Identity and access management (IAM)
- Role-based access controls
- End-to-end encryption and secrets management
- Comprehensive audit trails and compliance readiness

Disaster Recovery & Backup Design

- Integrated DR strategies within Vigyanlabs' architecture
- Cross-data center replication
- Automated snapshots and geo-redundancy
- Business continuity planning

Beyond Migration: Optimization & Legacy Modernization

Performance & Cost Optimization

Our optimization services include periodic infrastructure reviews, intelligent rightsizing, waste identification, and automation deployment to significantly reduce cloud spend while improving operational efficiency. We provide ongoing analysis and recommendations to ensure your cloud investment delivers maximum ROI.

- Automated cost monitoring and alerts
- Resource utilization analysis
- Performance benchmarking
- Continuous improvement recommendations

Training & Knowledge Transfer

Comprehensive team enablement programs, detailed runbooks, operations documentation, and hands-on knowledge transfer sessions to ensure your team is fully prepared for ongoing management.

Legacy & Mainframe Migration

For organizations with legacy workloads and mainframe systems, we provide specialized assistance in rehosting, application wrapping, or complete modernization to container-based or cloud-native alternatives. Our approach ensures minimal disruption while maximizing modernization benefits.

- Legacy system assessment and planning
- Modernization roadmap development
- Container orchestration implementation
- Cloud-native architecture design

Why Cynefian + Vigyanlabs is the Winning Combination

01

Technical Depth & Expertise

We combine deep cloud migration expertise with intimate knowledge of Vigyanlabs' IPM+ cloud architecture, ensuring seamless integration and optimal performance outcomes.

02

Risk-Averse, Phased Execution

Our methodology emphasizes pilot projects, comprehensive rollback options, and carefully planned phased migrations to minimize business disruption and ensure success.

03

Sovereign & Green Cloud Alignment

Clients migrate to a cloud purpose-built for India's context, featuring data residency compliance and energy-efficient micro-data centers targeting ~50% energy savings versus hyperscalers.

04

Cost Predictability & Efficiency

Benefit from lower operational overhead, optimized infrastructure consumption, and the ability to rationalize licensing costs while maintaining performance standards.

05

Long-Term Partnership Approach

We don't just "shift and forget" — we remain as your optimization partner, helping you modernize, evolve, and continuously improve your cloud operations.

Our Guarantees & Differentiators

0

Data Loss

Guaranteed through incremental synchronization, cutover controls, and comprehensive rollback safeguards

99.9%

Uptime SLA

Minimal downtime commitment with performance SLO compliance validation before handover

100%

Security Coverage

Embedded security, compliance, and governance from Day 0, aligned with regulatory requirements

End-to-End Execution Ownership

Complete migration scope management with nothing left ambiguous — we own the entire process from planning to optimization.

Flexible Engagement Models

Choose from project-based, managed services, co-managed models, or outcome-based engagements with cost savings guarantees.

Transparent Reporting

Weekly dashboards, comprehensive KPIs, risk logs, and regular status reviews with all stakeholders for complete visibility.

Ready to transform your cloud infrastructure? Partner with Cynefian and Vigyanlabs to experience migration excellence that delivers on every promise while positioning your organization for long-term success in India's leading hyperlocal cloud ecosystem.

Ready to Begin Your Migration Journey?

Take the first step towards a seamless and efficient cloud migration. Partner with Cynefian to transform your infrastructure with confidence. Contact us today for a personalized consultation and discover how our expertise can drive your success. Let's build your future in the cloud together!
